

HIGHLIGHTS

- Aggressive seedling vigour for a quick start
- Open husks promote rapid drydown
- Excellent standability
- Impressive late season appearance
- Excels in high yield environments

AGRONOMY NOTES

E55T32 R combines early season vigour and solid agronomics. Seedlings are pale green in colour and grow quickly. Plants are short to moderate in height with moderate ear placement. Ears are girthy with 16 – 18 rows. Husk cover is adequate and flare open in the fall aiding grain drydown. Stalks are strong through harvest. Position in and south of zone for optimum yield potential.
