

HIGHLIGHTS

- Consistent high yielding corn
- Solid agronomics for harvest ease
- Exceptional grain quality with high test weight
- Impressive late season plant health
- Responds to increased populations
- Excels in variable yield environments
- Allows for flexible harvest timing

AGRONOMY NOTES

E63G62 R is know for its top end yield and solid agronomics. Plants have strong seedling vigour. Shorter plant and lower ear height. Excellent leaf disease tolerance. Husks open well aiding grain drydown. Leading grain quality and test weight. Position in and north of zone. Tolerates higher populations (36-38k).

FEATURES

CHU: 2750 **RM:** 92  **RIB**
