

HIGHLIGHTS

- Ultra early flowering
- Excellent grain quality and test weight
- Open husk aids grain drydown
- Adequate husk cover

AGRONOMY NOTES

Ultra early flowering hybrid with exceptional grain quality and test weight. Industry leading early season vigour adapted for short seasons. Plants are shorter in stature with a long narrow ear. Husk cover is adequate. Ears are held on a long shank which hangs at harvest. Open husks at maturity aid rapid grain drydown. Above average test weight. Responds to increased population. Adapted in and north of its maturity zone.
