

AGRONOMY NOTES

Solid agronomics. Rapid spring vigour transforms into early flowering plants with exceptional stalk strength. Ears are 16-20 rows around with deep kernels. Position in zone as a grain hybrid at moderate to higher populations. Strong dual purpose option. As a silage option it provides large robust plants with exceptional starch content and availability. Position as a dual purpose option in and north of its maturity zone.

Highlights

- **Ultra early flowering**
- **Strong stalks and roots**
- **Large, wide leaves**
- **Rapid spring vigour**
- **Impressive ear with increased starch availability**

CHU: 2050 **RM:** 71
