

MZ 154

HIGHLIGHTS

- Rapid grain drydown
- Adapted north and south of zone
- Promotes harvest ease
- Strong disease package

AGRONOMY NOTES

MZ 154 elevates yield potential in early maturities. Seedlings are aggressive with long narrow dark green leaves. Plants are medium height with low ear placement. Ears are long and slender with 16 kernel rows. Ears have longer husk cover which opens well at harvest to aid drydown. Plants have excellent late season plant health and plant intactness. Position north and south of maturity zone.
