

MZ 1544DBR

HIGHLIGHTS

- Excellent disease package promotes yield
- Strong agronomics for harvest ease
- Versatile placement north and south of zone
- Rapid grain drydown

AGRONOMY NOTES

MZ 1544DBR elevates yield potential in early maturities. Seedlings are aggressive with long narrow dark green leaves. Plants are medium height with low ear placement. Ears are long and slender with 16 kernel rows. Ears have longer husk cover which opens well at harvest to aid drydown. Plants have excellent late season plant health and plant intactness. Position north and south of maturity zone.

CHU: 2250 RM: 75
