

# MZ 2266DBR

## AGRONOMY NOTES

MZ 2266DBR combines early maturity with elevated grain quality. Seedlings are dark in colour with upright, narrow leaves. Plants are short to moderate in height with a low ear height. Plants flower early for maturity. Ears are moderate in size with 14-16 kernel rows. Husks open well in the fall. Grain quality is excellent. Position in and north of zone for optimum yield. Early harvest is recommended south of zone.

### Highlights

- Moderate plant stature
- Open husks at harvest
- Above average test weight
- Very good NCLB tolerance

CHU: 2450 RM: 82
