

HIGHLIGHTS

- Early below ground insect protection
- Blocky ears with great grain quality
- Position on corn after corn fields
- Impressive seedling vigour for stand establishment

AGRONOMY NOTES

MZ 2452DUR the earliest hybrid for continuous corn acres. As a seedling it has dark green colour and long narrow leaves. Medium to tall plant height with wide leaves make it suitable for a silage or grain option. Ears are long with 16-18 kernel rows. Test weight is higher than average. Position in and north of zone at moderate populations.
