

HIGHLIGHTS

- Early flowering promotes movement north of zone
- Solid agronomics for harvest ease
- Excels in variable yield environments
- Impressive vigour for rapid stand establishment

AGRONOMY NOTES

MZ 269 combines rapid early season vigour and growth with excellent grain quality. Genetics are proven for yield stability across variable yield environments. Plants are tall with moderate ear placement. Ears are short and blocky with 18-22 kernel rows. Husk cover is long and opens well at harvest. Grain quality is very good. Plants have average disease tolerance and below average fall intactness. Position in and north of zone.
