

HIGHLIGHTS

- Powerful seedling vigour for tough conditions
- Leading top-end yields
- Rapid grain drydown
- Excels in high yield environments
- Predicted favourable response to fungicides

AGRONOMY NOTES

MZ 2982DBR starts strong with rapid spring vigour. Plants are shorter in height with low ear placement. Plants flower 1 day later vs MZ 3033DBR. Ears are long and cylindrical with 18-22 kernel rows. Husk cover is adequate to long. Husks open to aid drydown. Plants have average plant health and intactness into the fall. Grain has average test weight. Early harvest recommended south of zone.
