

HIGHLIGHTS

- Hybrid with top-end yield
- Strong stalks for flexible harvest
- Impressive vigour for early establishment
- Uniform ear size down the row
- Responds to fungicides
- Excels in moderate to high yield environments

AGRONOMY NOTES

Hybrid has solid seedling vigour. Plants are medium to tall with moderate ear placement. Leaves are erect and are pale in colour. Husk cover is adequate to long and ears maintain uniform size down the row. Plants have very good health and are intact through the fall. Ears are large with 16-18 kernel rows. Ear tips may not completely fill. Position at moderate populations in and south of adapted zone. Predicted to respond to fungicide application.
