

MZ 3120SMX

HIGHLIGHTS

- Powerful seedling vigour for tough conditions
- Leading top-end yields
- Bias toward high yield environments
- Rapid grain drydown

AGRONOMY NOTES

MZ 3120SMX starts strong with rapid spring vigour. Plants are shorter in height with low ear placement. Plants flower similar to MZ 3397SMX. Ears are long and cylindrical with 18-22 kernel rows and commonly have unfilled ear tips. Husk cover is adequate to long. Husks open to aid drydown. Plants have average plant health and intactness into the fall. Grain has average test weight. Early harvest recommended south of zone.
