

HIGHLIGHTS

- Early flowering allows movement north
- Leading plant health for flexible harvest
- Position on corn after corn fields
- Large ears enhance starch quantity

AGRONOMY NOTES

Flexible positioning. MZ 3397SMX has strong seedling vigour for rapid canopy establishment. Husk cover is adequate just covering ear tips. Strong stalks allow flexible harvest. Performs positively in low and high yield environments. Early flowering allows movement north of adapted zone. Performs best at moderate to higher populations.
