

HIGHLIGHTS

- Maturity-leading yield potential
- Solid stress tolerance
- Open husk for rapid drydown

AGRONOMY NOTES

MZ 4049SMX has solid seedling vigour. Plants grow to short to moderate height with an ear placed nicely. Plants flower 1 day earlier vs MZ 4368SMX. Ears are large with 18-20 rows. Kernels are deep with excellent grain quality. Husks zip open and hang showing grain during drydown. Husk cover is adequate to short and ears are held on a longer shank. Plant health is average. Very good tolerance to ear rots. Plant intactness at harvest is average with some plant tops missing. Stalk strength is very good. Position north and south of zone. Predicted favourable response to population and fungicide. Ideal for delayed harvest. Optimum performance at 32-35ppa population.
