

HIGHLIGHTS

- Industry-leading yield potential
- Ideal for variable-yield environments
- Impressive seedling vigour for tough conditions

AGRONOMY NOTES

MZ 452 elevates yield potential. Seedlings have rapid early growth for tough conditions. Plants are tall in height with a high ear placement. Leaf disease tolerance is very good. Ears are long with 18-20 kernel rows. Husk cover is long and opens well at harvest aiding grain drydown. Fall plant intactness is average. Position of timely harvest. May be a dual purpose option. Position in and south of maturity zone at moderate populations.
