

INTRODUCING MAIZEX FORAGES

Building on the legacy of Elite-brand product performance, our complete forage seed portfolio is now being marketed under the Maizex brand. Maizex is focused on the future of forage performance and quality. We understand that having the right products for your ration and farm is critical to profitability and that every farm is different in its approach to feed use and efficiency. This is why our development and agronomy teams are focused on the testing, selection, and in-field support of forage seed varieties to meet the specific nutrition and agronomic needs of farmers like you.

FORAGE MIX SELECTOR

The blends listed below have been positioned by our expert agronomists to address the specific needs of Canadian dairy, beef, and export operations. Contact your Maizex dealer for assistance in planning your forages field by field.

Read more about our blends tailored for every field, no matter your ration needs.
